San Jose, CA 95110
USA

Dear Abhinav,

Thank you for registering with Yoga Alliance. Your registration ID card is located in the upper right corner of this letter.

Registration Benefits

By registering, you've already taken an important step to maintaining your professional credibility as a yoga teacher. Here are some ideas on how to use Yoga Alliance to expand your knowledge and experience as a teacher:

- **Credibility:** Registration with Yoga Alliance enhances your credibility and integrity as a yoga professional since our designations are the premier forms of recognition for yoga teachers. The registry provides global recognition of your knowledge, training and experience to potential students and employers. Studio owners feel confident hiring you knowing that your training meets our standards and students can trust that they receive instruction from a qualified teacher.
- **Find Teaching Opportunities:** If you're looking for new teaching opportunities, find a registered school in your area via our website and introduce yourself to the owner. Drop in to take a class and inquire about opportunities in person.
- **Identify Quality Trainings:** As a part of your agreement with us, you will complete continuing education units every three years. You can start by looking for Experienced Registered Yoga Teachers (E-RYTs) in your area to identify trainings eligible for continuing education credits. Let us know if we can help.
- **Polish your Professional Image:** You can use your E-RYT designation following your name and on your marketing materials and website. The public image you project as a yoga teacher can help stimulate new business by referencing your qualifications.

Please visit our website, www.yogaalliance.org, to check out information on registering, renewing and upgrading online and new offerings for Children's yoga and Prenatal yoga. Thank you for supporting Yoga Alliance and for committing to maintain the integrity of yoga teachings.

Sincerely,

John Matthews
President
